

Project Design Phase
Proposed Solution Template

Date	15 February 2025
Team ID	
Project Name	Strategic Product Placement Analysis
Maximum Marks	2 Marks

Proposed Solution :

S.No.	Parameter	Description
1	Problem Statement	Retail companies need to identify the best product placement strategies to improve sales and customer engagement using data-driven insights.
2	Idea / Solution Description	Develop an interactive Tableau dashboard to analyze sales, product placement, and customer data for better business decisions.
3	Novelty / Uniqueness	Combines sales, placement, and customer data into one interactive dashboard with filters, KPIs, and visual analytics.
4	Social Impact / Customer Satisfaction	Improves shopping experience through better product placement and helps businesses meet customer preferences.
5	Business Model (Revenue Model)	Increases revenue by optimizing product placement and can be offered as a BI analytics solution for retailers.
6	Scalability of the Solution	Easily scalable across multiple stores, regions, and product categories with support for larger datasets and future AI integration.
